

DATAMATION SYSTEMS, INC

Clinical mobile device security made easy.

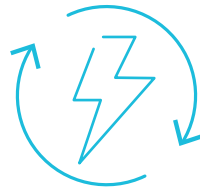

UniDock™ Safe lets health care organizations easily protect mobile devices without the need for an MDM software solution. It integrates with UniDock™ Intelligent Docking Station to provide physical security for your technology investment.

Secure, protect, and store large fleets of mobile devices

Control access and prevent theft of critical devices

Ensure every device is charged and accessible the moment it is needed

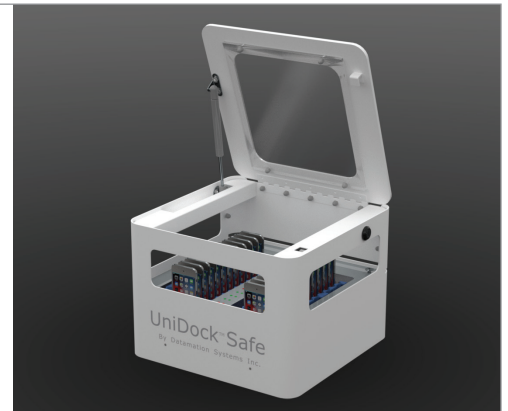

Help clinicians be more efficient, productive, and focused on patient care

Save IT teams time, money, and labor
